EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Biffoni on May 10, 2004.

The application has been amended as follows:

Claim 13, line 6, "about" (both occurrences) was replaced with – or equal to--.

Claim 25, line 6, "about" (both occurrences) was replaced with – or equal to--.

Claim 37, line 6, "about" (both occurrences) was replaced with – or equal to--.

Claims 51-62 were canceled without prejudice due to prior art.

The prior arts found that would apply to claim 51-62 is a combination of Tomalia and Milco et al. (US 5,731,095). Milco teaches dendritic polymers which include dendrigrafts with many reactive groups.

The following is an examiner's statement of reasons for allowance: The prior arts fail to teach various percentages of surface functional groups, i.e 75% of hydroxyl groups and about 25% of primary amine groups; 80% of hydroxyl group and 20% of primary amine groups, on polyamidoamine dendrimers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
